

# PROJECT PROPOSAL: TRANSPARENT CHARITY & DONATION PLATFORM

**Date:** June 18, 2026

**Prepared By:** [Your Name]

**Prepared For:** [Client Name]

## 1. PROJECT OBJECTIVE

Build a modern, fast, and trustworthy charity website using React.js. The platform will focus on transparency, allowing donors to track exactly where their money is spent (fees, food, medical) with real receipts as proof.

## 2. CORE REQUIREMENTS

- User Registration: Donor login/signup with email and social accounts
- Secure Payments: Credit/Debit cards, JazzCash, EasyPaisa, Bank Transfer
- Campaign Management: Admin can create, edit, and close campaigns
- Progress Tracking: Live progress bars showing funds collected
- Admin Dashboard: Full control over campaigns, donations, and reports
- Mobile Responsive: 100% works on phones, tablets, and desktops
- Fast Performance: Quick loading with React.js optimization
- SEO Optimized: Rank high on Google for charity searches
- SSL Security: Safe and encrypted transactions
- Backup System: Automatic data backups for safety

## 3. UNIQUE FEATURE: "TRACK YOUR DONATION"

- Budget Breakdown: Each campaign shows clear fund allocation (e.g., 60% fees, 40% books)
- Proof Upload: Admin uploads real receipts/photos after spending money
- Donor Notifications: Donors receive email/SMS: "Your Rs. 5,000 paid Ali's fee. See receipt"
- Impact Timeline: Donors see a timeline of how their money was used step-by-step

## 4. EXTRA FEATURES (TO IMPRESS DONORS)

- Anonymous Donations: Donate without showing name
- Monthly Subscriptions: Auto-recurring donations
- WhatsApp Integration: Quick donate via WhatsApp

- Auto Tax Receipts: Instant downloadable tax documents
- Multi-Language: Urdu + English support
- Social Sharing: Share campaigns on Facebook/WhatsApp
- Volunteer Signup: People can register to help physically
- Donor Leaderboard: Recognize top contributors

## 5. WEBSITE PAGES

- Home: Welcome page with live stats and urgent campaigns
- Explore Causes: List all campaigns with filters (Health, Education, Food)
- Campaign Details: Full story, budget table, and donate button
- Checkout: Simple, secure payment page
- Donor Dashboard: Personal area to see donations, receipts, and proof of expenses
- Volunteer Page: Registration form for volunteers
- Contact/About: Organization info and contact details

## 6. TECHNOLOGY STACK

- Frontend: React.js (Fast, modern, app-like experience)
- Backend: Node.js + Express (Secure API handling)
- Database: MongoDB (Flexible data storage)
- Development Tool: Trae AI for clean, bug-free code

## 7. WHY THIS PROPOSAL?

This platform is not just a donation website—it's a trust-building system. With the "Proof of Expense" feature and extra tools like WhatsApp integration and auto tax receipts, donors will feel confident, leading to more donations and repeat donors.
